

IN THE DRAWINGS:

Please approve the drawing changes as shown in red in the attached marked-up copy of Fig. 35. A separate Letter to the Draftsman and Submission of Substitute Formal Drawings, indicating the same proposed changes, is also enclosed.

REMARKS

As a preliminary matter, Applicants thank the Examiner for allowance of claim 60.

As a second preliminary matter, with respect to the drawings, Applicants have included herewith a marked-up copy of Fig. 35, with the proposed changes shown in red. The proposed changes correct a typographical error in the drawing. The one-fifth of the one frame period (16 ms) is incorrectly shown in the drawing to be "32 ms," while it is clear from the context of Fig. 35, as well as the text at page 65, lines 30-34, that this number should correctly read as "3.2 ms." Approval of the proposed drawing changes is therefore respectfully requested.

Claims 51-53, 55-58, and 114 all stand rejected under both 35 U.S.C. 112, first paragraph, and 35 U.S.C. 103(a). Claims 51-53, 55-58, and 114 have been cancelled without prejudice herein, rendering the rejections to these claims now moot.

For all of the foregoing reasons, Applicants submit that this Application, including claim 60, is in condition for allowance, which is respectfully requested. The Examiner is invited to contact the undersigned Attorney if an interview would expedite prosecution.
